In *Dictionary of the Future*, authors Faith Popcorn and Adam Hanft provide a fascinating "speak preview" of the words and terms that capture tomorrow's innovations and forces of change:

**DNA'd** -- being bounced from a relationship because your genes don't measure up.

**Karaoke Managers** -- those who get ahead by lip-synching the wisdom of others.

**Mannies** -- male nannies, who are growing in numbers.

**Admirenvyy** -- the common condition of admiring something -- or someone -- and being envious at the same time.

**Pharmacogenomics** -- the process of creating customized prescription drugs.

Our revved-up world isn't just changing faster than ever before, it's creating new words and new language at breakneck speed. Now, Faith Popcorn, the futurist and trend authority who is known as the Nostradamus of marketing -- and Adam Hanft, author, business strategist and media critic -- have created the first-ever *Dictionary of the Future* a thought-provoking, entertaining and richly informative collection of hundreds of new, emerging and just-invented words and terms. While traditional dictionaries wait for language to achieve familiarity, *Dictionary of the Future* is there first, enabling readers to identify the latest trends across all dimensions of the culture. Turn its pages and you see the future taking shape, word by word, idea by idea. Organized by familiar categories such as the arts, corporate America, education, health and technology -- and by provocative rubrics such as "New Behaviors" and "New Structures" -- *Dictionary of the Future* includes newly minted language such as:

**Yogurt Cities** -- places with "active cultures" where baby boomers will retire.

**Chimeroplasty** -- molecular messengers that will repair damaged genes.

**Free-Range Children** -- new generation of kids raised without over-programming.

*Dictionary of the Future* is an extraordinary advance look at tomorrow. More than fascinating reading, more than a treat for anyone who loves words, it's filled with valuable insights that can change the way you think about your business, your career, your health and, ok yes, the world.
