Adventures in Social Research: Data Analysis Using SPSS 11.0/11.5 for Windows (Undergraduate Research Methods & Statistics in the Social Sciences) Earl Babbie, Fred Halley, Jeanne S. Zaino

Adventures in Social Research supports students who are taking their first course in social research, as well as more advanced students who want either to hone their research skills or become acquainted with the latest versions of SPSS for Windows. As with the widely adopted previous editions, the authors supply detailed instructions illustrated with more than 140 screenshots so that students will always know what they should see on their monitors.

Designed for both introductory and advanced research methods or statistics courses in sociology, political science, social work, criminal justice, and public health departments, **Adventures in Social Research** is also an ideal computer skills and data analysis textbook for any discipline that uses survey methods.
