The Poems of Goethe Johann Wolfgang von Goethe

THE reluctance which must naturally be felt by any one in venturing to give to the world a book such as the present, where the beauties of the great original must inevitably be diminished, if not destroyed, in the process of passing through the translator's hands, cannot but be felt in all its force when that translator has not penetrated beyond the outer courts of the poetic fane, and can have no hope of advancing further, or of reaching its sanctuary. But it is to me a subject of peculiar satisfaction that your kind permission to have your name inscribed upon this page serves to attain a twofold end—one direct and personal, and relating to the present day; the other reflected and historical, and belonging to times long gone by. Of the first little need now be said, for the privilege is wholly mine, in making this dedication: as to the second, one word of explanation will suffice for those who have made the greatest poet of Germany, almost of the world, their study, and to whom the story of his life is not unknown. All who have followed the career of GOETHE are familiar with the name and character of DALBERG, and also with the deep and lasting friendship that existed between them, from which SCHILLER too was not absent; recalling to the mind the days of old, when a Virgil and a Horace and a Maecenas sat side by side. Remembering, then, the connection that, in a former century, was formed and riveted between your illustrious ancestor and him whom it is the object of these pages to represent, I deem it a happy augury that the link then established finds itself not wholly severed even now (although its strength may be immeasurably weakened in the comparison), inasmuch as this page brings them once more in contact, the one in the person of his own descendant, the other in that of the translator of his Poems.
