Astrophysicist-in-training Piper Minogue has a lot of control over her day-to-day life. Between completing a Master's degree at Caltech and beginning her fruitful career at a local observatory she has little time for socializing.

Until she attends one specific party that is.

There, Piper is introduced to a drinking game called Never Have I Ever, and she finds herself admitting to a secret fantasy which challenges her friends' views of her otherwise prudish nature. Her confession piques the interest of one man in particular, Noah; a handsome stranger with a darkly boyish charm.

The resulting spiral of rapture and torture that follows is threatened by the demons of both their pasts. Piper's inability to give her heart to anyone, and Noah's guilt over the death of his former lover claw to the surface to tear Piper away from not only the one man who has ever made her feel like she does not have to be in control of her desires, but also the newly collected list of Nevers they both want to turn into reality.

Contains strong BDSM themes
