Oleochemical Manufacture and Applications (Sheffield Chemistry and Technology of Oils and Fats)

Oleochemical Manufacture and Applications (Sheffield Chemistry and Technology of Oils and Fats)

Oleochemical Manufacture and Applications presents an overview of oleochemicals at the research and professional levels, with an emphasis on industrial production and applications. Approximately half of the chapters consider general matters, while the other half deal with applications. Authors are drawn from industrial and academic laboratories around the world. The book is an invaluable reference for chemists and technologists working on the production and use of oleochemicals, analytical chemists, quality assurance personnel, and lipid chemists in academic research laboratories.
