"It is our intention to notice many things, however trivial, that may in any way serve to enlighten our readers respecting the joiner's art." Our Workshop and The Lathe And How To Use It, 1866 & 1867, are two of the earliest craft books for the amateur woodworker. Writing with a directness and clarity seldom found in nineteenth century craft books, Temple Thorold's books represent an invaluable resource for the modern traditional woodworker. The Toolemera Press re-publishes classic books on early crafts, trades and industries, from our personal library. www.toolemera.com
