Nematode Behaviour (Cabi)

Randy Gaugler, Anwar L Bilgrami

Nematode Behaviour (Cabi) Randy Gaugler, Anwar L Bilgrami

Nematode worms are among the most ubiquitous organisms on earth. They include free-living forms as well as parasites of plants, insects, humans and other animals. In recent years, there has been an explosion of interest in nematode biology, including the area of nematode behavior. The latter has, however, until now, not been synthesized into a single comprehensive volume.

Nematode Behaviour seeks to redress this imbalance by providing the first comprehensive review of current knowledge of the behavior of nematodes. Key topics including locomotion and orientation, feeding and reproductive behavior, and biotic and abiotic interactions are reviewed by leading authorities from the USA, UK, India and New Zealand.
