**My name it is Sam Hall: and I hate you one and all (A Conquered Armies Novella)** Mr. John M Miller  
Driven by a self-appointed mission and preaching apocalypse while voices from the past echo in his brain Sam Hall was an unwelcome intrusion into the stable and secure universe of the glorious Terran Republic. This is the first in the Sam Hall series, a history of the final years before the second-and hopefully final- Great War. I selected Sam Hall and his group since they were among the first humans to identify the impending threat of war and were participants in some of the representative episodes that occurred throughout the Republic's Frontiers in the years prior to the actual conflict. Being unable to adequately describe the literally hundreds of these small wars that set the stage for the final epic conflict in any but the briefest of details, I have instead opted to treat in much greater detail the several conflicts closely associated with Sam and his band to allow the reader to gain a greater appreciation for the complexity of issues that surrounded each of these comparatively small but significant events. This book takes you from the birth of Sam to his brief- but bloody- visit to Darkside on Taratupa, a frontier system and birthplace of the Republic, and ends with his departure to the human colonies in exile.
