## **The World According to Monsanto** Marie-Monique Robin

Published to stellar praise worldwide, *The World According to Monsanto* charts award-winning journalist and documentary filmmaker Marie-Monique Robin's three-year journey across four continents to uncover the disturbing practices of multinational agribusiness corporation Monsanto.

The book exposes the shocking story of how the new “green” face of the world's leading producer of GMOs (genetically modified organisms) is no less malign than its PCB—and Agent Orange—soaked past. Monsanto currently controls the majority of the yield of the world's genetically modified corn and soy—ingredients found in more than 95 percent of American households—and its alarming legal and political tactics to maintain this monopoly are the subject of worldwide concern, with baleful consequences for the world's small-scale farmers.

Selected as a finalist for the New York Public Library's 2011 Helen Bernstein Book Award for Excellence in Journalism, *The World According to Monsanto* is positioned to increase awareness of a serious threat to our food supply.
