## **Dante: Monarchy (Cambridge Texts in the History of Political Thought) Dante**

This is the first new translation for forty years of a fascinating work of political theory, until now only available in academic libraries. Dante's *Monarchy* addresses the fundamental question of what form of political organization best suits human nature; it embodies a political vision of startling originality and power, and illuminates the intellectual interests and achievements of one of the world's great poets. Prue Shaw's translation is accompanied by a full introduction and notes, which provide a complete guide to the text, and places *Monarchy* in the context of Dante's life and work.
