Men-at-Arms 395: Tribes of the Iroquois Confederation Michael G Johnson

The Five (later Six) Nations of the Iroquois Confederacy were central to the story of the white colonization of the American Northeast. The European fur trade transformed their world, and the struggles between English and French colonists forced the tribes to take sides during the Beaver Wars as well as the French and Indian Wars (1689-1763), which included King William's War, Queen Anne's War, King George's War, and finally ended with the French and Indian War of 1754. Sir William Johnson's efforts in the Mohawk Valley ensured that the Iroquois Nations were allies of the British crown; and the loyalty of his kinsman Joseph Brant (Thayendanegea) during the American Revolution forced the Mohawks into Canadian exile. This richly illustrated book introduces Iroquois history, social organization, religion and material culture.
