# A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling

*Larry Hatcher Ph.D.*

## **A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling** Larry Hatcher Ph.D.

Packed with concrete examples, Larry Hatcher's Step-by-Step Approach to Using SAS for Factor Analysis and Structural Equation Modeling provides an introduction to more advanced statistical procedures and includes handy appendixes that give basic instruction in using SAS. Novice SAS users will find all they need in this one volume to master SAS basics and to move into advanced statistical analyses. Featured is a simple, step-by-step approach to testing structural equation models with latent variables using the CALIS procedure. The following topics are explained in easy-to-understand terms: exploratory factor analysis, principal component analysis, and developing measurement models with confirmatory factor analysis. Other topics of note include "LISREL-type" analyses with the user-friendly PROC CALIS and solving problems encountered in real-world social science research.

### **From reader reviews:**

#### **Warren Johnson:**

The book A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling can give more knowledge and also the precise product information about everything you want. Exactly why must we leave a good thing like a book A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling? Some of you have a different opinion about e-book. But one aim which book can give many info for us. It is absolutely correct. Right now, try to closer with your book. Knowledge or info that you take for that, you can give for each other; it is possible to share all of these. Book A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling has simple shape however, you know: it has great and large function for you. You can search the enormous world by available and read a reserve. So it is very wonderful.

#### **Betty Freeman:**

Many people spending their period by playing outside together with friends, fun activity with family or just watching TV all day every day. You can have new activity to enjoy your whole day by studying a book. Ugh, you think reading a book can actually hard because you have to take the book everywhere? It all right you can have the e-book, delivering everywhere you want in your Cell phone. Like A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling which is finding the e-book version. So , why not try out this book? Let's view.

#### **Joseph Lee:**

This A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling is new way for you who has interest to look for some information since it relief your hunger details. Getting deeper you upon it getting knowledge more you know or else you who still having bit of digest in reading this A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling can be the light food for you personally because the information inside that book is easy to get by simply anyone. These books develop itself in the form that is reachable by anyone, that's why I mean in the e-book application form. People who think that in publication form make them feel sleepy even dizzy this guide is the answer. So there isn't any in reading a book especially this one. You can find actually looking for. It should be here for a person. So , don't miss it! Just read this e-book kind for your better life and knowledge.

#### **James Butler:**

As a college student exactly feel bored for you to reading. If their teacher questioned them to go to the library or even make summary for some publication, they are complained. Just little students that has reading's spirit or real their leisure activity. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that studying is not important,

boring along with can't see colorful photos on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this A Step-by-Step Approach to Using the SAS System for Factor Analysis and Structural Equation Modeling can make you experience more interested to read.
