A lot can change in a century, and Silo 49 has transformed from a dying silo into one filled with life and hope. Graham set Silo 49 free from the machinations of Silo One and the control of the WOOL agenda in *Silo 49: Going Dark*. Since then, they have been alone and on their own, with no one to guide them...or suppress them. Their silo has changed for the better, but a gentler and kinder lie is *still* a lie and the truth waits to be found.

Marina is a Fabricator, a worker of metal, and has been tasked with reclaiming the silver of the silo from private hands to replenish the diminishing vault stocks. Among the curiosities turned in, she finds something that should not exist and that begins a search for the most elusive thing in the silo...the truth. Long buried truths aren't the only things unearthed during her single-minded pursuit. Crime, memory-wipes, and even death will stalk the eternal stairwell of the silo.
