BOOK #1: The Ultimate Survival Manual: Basic Skills That Will Help You Stay Alive

Are you prepared for a disaster? Have you taken any precautions to ensure that in an emergency you and your family will be prepared? If not, the time to begin accumulating skills is right now. Because in a crisis it's already too late to learn how to handle disasters.

We live in a world where crisis follows crisis with barely a respite between. Basic survival skills are essential to maintain your health, home and happiness. This guidebook will serve as a quick introduction to 25 essential survival skills that will enable you to maintain a steady supply of food and water, secure your perimeter and protect yourself from incursions from unwanted and even undetectable menaces. The precautions you take in the immediate are the ones that will serve you best, in the long run.

This guide book will help you learn how to:

- Gather, prepare, preserve and store foodstuffs for safe consumption months and even years in the future
- Collect, purify and store water
- Guard and defend your property against intrusion
- Determine the best times to shelter in place and when to bug out to a safe, remote location
- Safely use firearms for self-defense as well as hunting

BOOK #2: Build a Survival Safe Home: The Ultimate Guide to Building Wilderness Shelters

Wilderness shelters can be simply constructed, or they can be rudimentary structures with impressive protection from the dangers outside. Having the knowledge necessary to manage no matter the conditions, no matter the terrain puts you at a distinct advantage to those who will be scrambling and desperate.

This brief guide introduces you to several different types of shelters and gives you the necessary insight to be able to survive in the wilderness no matter what situation you find yourself in. Readers will learn which item is of the utmost importance to have in their bug out bags.

Here you will also discover how to:

- Construct free standing structures out of basic materials
- Work in extreme conditions, such as ice and snow
- Adapt natural shelters for temporary usage
- Build complementary items to improve the relative comfort of an emergency shelter
