Contours of Old Testament Theology Bernhard W. Anderson

In this masterwork, one of America's leading biblical scholars takes a fresh look at the theology of the Old Testament. Anderson cuts his own path and provides us with creative new insights on all the major sections of the Old Testament. He illuminates the nuances of the various covenants and theological shifts in a highly readable style. His conversation partners include the formative contributors from both the Christian community (Eichrodt, von Rad, Childs) and the Jewish community (Heschel, Herberg, Levenson) while interacting with the most recent developments in the field, especially Walter Brueggemann's *Theology of the Old Testament*.
