Pediatric Chiropractic, Second edition is a comprehensive resource that covers a wide range of information on pediatric chiropractic care. An international panel of 42 experts contributed to this book. Among the many topics covered are: care during pregnancy and the perinatal period, subluxation, clinical and radiological examination, child abuse, adolescent health, spinal trauma, scoliosis, pediatric nutrition, vaccination issues, and full spine and cranial adjustments. This reference carefully illustrates that the chiropractor is an appropriate and necessary provider of health care for children.
