## **Research Design in Urban Planning: A Student's Guide** Stuart Farthing

"This excellent book fills a significant gap in the literature supporting planning education by providing clear, succinct advice on the design and implementation of small-scale student research projects."

- *Chris Couch, Professor of Geography and Planning, University of Liverpool*

"A perfect text for supervisors to give students so that they plan their research projects carefully rather than leap headlong into data collection."

- *Jean Hillier, Emeritus Professor of Sustainability and Urban Planning, RMIT University, Melbourne*

"Highly recommended... Ranging across topics such as planning a research programme and data management and the handling of ethical issues, the book will be very helpful to those embarking on a thesis or dissertation in the field."

- *Peter Fidler, President of the University of Sunderland*

**Research Design in Urban Planning** is a short, accessible, and clearly written text on how to design research for a dissertation planning project. Aimed at both undergraduate and postgraduate levels, this text will:

- discuss research design, looking in detail at how researchers make their choices of methods
- examine these in reference to case studies/examples from the planning research literature
- explain to students how to interpret policy to define researchable questions
- review the issues comparatively
- situate the methodological questions in terms of research ethics.

Packed with case studies, exercises, illustrations and summaries, **Research Design in Urban Planning** is an invaluable resource for students undertaking their first substantial, individual investigations.
