Fluid Flows to Black Holes: A Tribute to S Chandrasekhar on His Birth Centenary D. J. Saikia

This unique book contains a biographical portrait, accounts of Chandrasekhar's role and impact on modern science, historical perspectives and personal reminiscences, several of which appeared in *Physics Today*, and reviews by leading experts in areas which Prof. Chandrasekhar pioneered. The reviews, which appeared in the *Bulletin of the Astronomical Society of India*, are either based on papers presented by scholars in the Chandrasekhar Centennial Symposium at the University of Chicago during 15-17 October 2010, or were additional reviews covering topics not represented at the conference by other distinguished astrophysicists. It provides a glimpse of some of the most exciting areas of modern astrophysics as a tribute to Prof Chandrasekhar on his birth centenary.
